

# BLOOD GLUCOSE METERS

## BLOOD DROP SIZE

Meters specify how much blood, in microliters, is needed to get an accurate reading. Some meters allow you to reapply blood within a few seconds if your sample size was too small, so you don't waste a strip.

Blood Drop Size	1.5	1.0	0.8	0.7
	●	●	●	●
	●	●	●	●
	0.6	0.5	0.4	0.3

## KEY

- A)** = audio capability
- \*** = backlight
- BP** = measures both blood glucose and blood pressure
- B** = wireless Bluetooth capability
- C** = requires user coding
- ☁** = can save data to the cloud without having to push the data to another device
- ↓** = computer download capability
- K** = also tests blood ketones
- P** = communicates with insulin pump
- ☀** = port light
- 📝** = logs insulin dose
- +** = calculates insulin dose
- ⚙** = meter program offers access to certified diabetes educators
- 📱** = app compatible
- \*** = microliters
- \*\*** = sold only with insulin pump
- MSRP** = manufacturer's suggested retail price. These are over-the-counter retail prices; check with your insurance plan for specific coverage and out-of-pocket costs.
